Restricted Building Work

Certificates of Work received from:

Bruce Welsh Reg Architect 2153

- Primary Structure
- External Moisture Management Systems

This National Multiple-Use Approval is subject to the following conditions:

1. Subject to the Permitted Variations, this National Multiple-Use Approval may only be used in its entirety, and does not apply to any one part of the plans and specifications.
2. This National Multiple-Use Approval includes the Permitted Variations set out in this Schedule. If there are changes to the approved plans and specifications this National Multiple-Use Approval does not apply.
3. More than one Permitted Variation may be used. The requirements for a dwelling must be maintained.
4. Mirror images of the floor plan are permitted.
5. Joined Module Arrangements as shown on drawing A4 Rev 0, A5 Rev 0 and A6 Rev 0 are permitted.
6. Foundations are not included in this National Multiple-Use Approval.
7. This National Multiple-Use Approval can only be used where the following conditions apply:
 - a. Seismic zones: Limited to sites in earthquake zones 1 to 3, and in all subsoil classes as defined in NZS 3604:2011.
 - b. Snow Loading: Limited to sites with a maximum ground snow load of 0.9kPa and in zones N4 and N5 maximum altitude of 100m as defined in NZS 3604:2011.
 - c. Wind zones: Limited to sites up to and including Extra High wind zone as defined in NZS 3604:2011.
 - d. Climate zones: Up to and including Zone 2 as defined in NZS 4218:2009.
 - e. Exposure zone: Up to and including Zone D as defined in NZS 3604:2011. Except where adverse microclimatic factors (e.g. geothermal areas)
