This National Multiple-Use Approval is subject to the following conditions:

1. This National Multiple-Use Approval includes the Permitted Variations set out in this Schedule. If there are any changes to the approved plans and specifications this National Multiple-Use Approval does not apply.
2. Minor variations in accordance with Building (Minor Variations) Regulations 2009 are permitted.
3. More than one Permitted Variation may be used.
4. Mirror images of the floor plan are permitted.
5. Foundations are not included in this National Multiple-Use Approval.
6. Protection from Fire is to be reassessed in context of location on site at the Building Consent stage.
7. Ministry of Education requirements are to be assessed at the Building Consent stage.
8. This National Multiple-Use Approval can only be used where the following conditions apply:
 - a. Seismic zones: Limited to sites within earthquake zones 1 and 2 in all subsoil classes as defined in NZS 3604:2011.
 - b. Snow Loading: Limited to sites with a maximum ground snow load of 0.9kPa as defined in NZS 3604:2011.
 - c. Wind zones: Limited to sites with up to and including High Wind Zone as defined in NZS 3604:2011.
 - d. Climate zones: Up to and including Zone 3 as defined in NZS 4218:2009.
 - e. Exposure zone: Limited to sites within zones B and C as defined in NZS 3604:2011. Note that microclimatic considerations require specific engineering design.
