This National Multiple-Use Approval is subject to the following conditions:

- 1. This National Multiple-Use Approval includes the Permitted Variations set out in this Schedule. If there are any changes to the approved plans and specifications this National Multiple-Use Approval does not apply.

 2. Minor variations in accordance with Building (Minor Variations) Regulations 2009 are permitted.
- 3. More than one Permitted Variation may be used. The requirements for a dwelling must be maintained. Deck options described in the Deck Drawings are permitted.
- 4. Mirror images and flipped images of the floor plan and roof plan are permitted.
- . Protection from fire is to be reassessed in context of location on site at the Building Consent stage.
- This National Multiple-Use Approval can only be used where the following conditions apply:
 - a. Seismic zones: Limited to sites in earthquake zones 1 to 3, and in all subsoil classes as defined in NZS 3604:2011. Also part of earthquake zone 4 refer to Engineering Drawing sheet 3-06 or 4-07
- b. Snow Loading: Limited to sites with a maximum ground snow load of 2kPa and in zone N4 maximum altitude of 200m and zone N5 maximum altitude of 300m as defined in NZS 3604:2011.
- c. Wind zones: Limited to sites up to and including Very High wind zone as defined in NZS 3604:2011.
- d. Climate zones: Up to and including Zone 3 as defined in NZS 4218:2009.
- e. Exposure zone: Up to and including Zone D as defined in NZS 3604:2011. Except where adverse microclimatic factors (e.g. geothermal areas)
- f. Ground bearing capacity: Good ground as defined in B1 Structure Compliance Document
