### This National Multiple-Use Approval is subject to the following conditions:

1. This National Multiple-Use Approval includes the Permitted Variations set out in this Schedule. If there are any changes to the approved plans and specifications this National Multiple-Use Approval does not apply.

Electrical Specification - 22 Degrees Building Services dated

October 2018 Job No: 4782 Issue Rev B

- Minor variations in accordance with Building (Minor Variations) Regulations 2009 are permitted.
- 3. This National Multiple-Use Approval can only be used where the following conditions apply:
  - Wind zone: Limited to sites up to and including Very High wind zone as defined in NZS 3604:2011.
  - Seismic zone: Sites in all earthquake zones and in all subsoil classes as defined in NZS 3604:2011.
  - Exposure zone: Up to and including Zone D as defined in NZS 3604:2011. Except where adverse microclimatic factors (e.g. geothermal areas)

- Climate zones: Up to and including Zone 3 as defined in NZS 4218:2009.
- Snow Loading: Limited to sites with a maximum ground snow load of 2.2kPa as defined in NZS 3604:2011.

Performance Specification dated 20/06/2019

Ground bearing capacity: Good ground as defined in B1 Structure Compliance Document
