- Primary Structure

Neil Cotton  
Registered Architect No 1464  

- External Moisture Management Systems

### This National Multiple-Use Approval is subject to the following conditions:

- This national multiple-use approval may only be used in its entirety, and does not apply to any one part of the plans and specifications.
- If there are any changes to the approved plans and specifications, this national multiple-use approval does not apply.
- Minor variations to the design as defined in the Building (Minor Variations) Regulations 2009 are permitted; and must be assessed at the building consent stage.
- The building must be connected to a sewer or foul water disposal system and connected to a portable water supply.
- Mirror images and flipped images of the floor plan and roof plan are permitted.
- This National Multiple-Use Approval can only be used where the following conditions apply:
  - Wind zone: Limited to sites up to and including High wind zone (44m/s) as defined in Table 5.4 of NZS 3604:2011
  - Seismic zone: Limited to sites in earthquake zone 1 as defined in Figure 5.4 of NZS 3604: 2011 and in all subsoil classes as defined in 5.3.3 of NZS 3604:2011.
  - Exposure zone: Limited to sites up to and including Zone B as defined in 4.2.3.1 of NZS 3604: 2011. Except where adverse microclimatic factors (e.g. geothermal areas).
  - Climate zone: Limited to sites up to and including Zone 2 as defined in Appendix B of NZS 4218:2009
  - Snow Loading: Limited to a maximum 1kPa ground snow load.
  - Ground bearing capacity: Good ground as defined in definition section of B1 Structure Acceptable Solutions and Verification Methods
