**2 PRODUCT CERTIFICATION BODY**

**Bureau Veritas Australia Pty Ltd**  
3/435 Williamstown Road  
Port Melbourne VIC 3207  
Australia

Ph: 1800 855 190  
[www.bureauveritas.com.au](http://www.bureauveritas.com.au)

**Bureau Veritas Australia Pty Ltd**

The complaints process for this certificate can be found here:  
[www.bureauveritas.com.au/your-feedback](http://www.bureauveritas.com.au/your-feedback)

**3 SUMMARY OF DESCRIPTION OF BUILDING METHOD OR PRODUCT**

The TRM WeatherAll® System is an acrylic-based textile-reinforced flexible adhesive waterproofing membrane system. The key components of the system are:

- TRM PrimeKey®
- TRM ElastaBond®
- TRM ElastaMesh®

*Continuation of description can be found in item 9. Supporting Information about Description of Building Product or Method.  
Matters that should be taken into account in the use or application of the building method or product can be found in item 6. Conditions and Limitations of Use.*

**4 SUMMARY OF INTENDED USE OF BUILDING METHOD OR PRODUCT**

The TRM WeatherAll® System is used to waterproof junctions between disparate building materials of the building envelope. The system is for remedial work where unwanted moisture ingress has been found, or to waterproof complex junctions on new building work.

*Continuation of intended use can be found in item 8. Supporting Information about Intended use of Building Product or Method.*

**5 BUILDING CODE PROVISIONS**

*The performance clauses of the New Zealand Building Code that are relevant to the intended use and with which the building method or product complies or contributes to (where used as part of a system).*

**B2 Durability:** B2.3.1(b)  
**E2 External moisture:** E2.3.2 (contributes to), E2.3.7  
**F2 Hazardous building materials:** F2.3.1

*How the building method or product complies or contributes can be found in item 12. Basis for Certification. Any qualifications on the extent of that compliance can be found in item 6. Conditions and limitations of use.*

This certificate is issued by an independent certification body accredited by JAS-ANZ, the product certification accreditation body appointed by the Chief Executive of the Ministry of Business, Innovation and Employment under the Building Act 2004. The Ministry does not in any way warrant, guarantee, or represent that the building method or product that is the subject of this certificate conforms with the New Zealand Building Code, nor accept any liability arising out of the use of the building method or product. The Ministry disclaims to the extent permitted by law, all liability (including negligence) for claims of losses, expenses, damages, and costs arising as a result of the use of the building method(s) or product(s) referred to in this certificate.

This certificate may only be reproduced in its entirety. It is advised to check that this certificate is currently valid and not withdrawn or suspended by referring to the Register of Product Certificates on the Building Performance website <http://www.building.govt.nz>.  
CERTIFICATE V1.3

## TRM WeatherAll® System

### 6 CONDITIONS AND LIMITATIONS OF USE

1. The TRM WeatherAll® system shall be specified in accordance with the TRM WeatherAll® Technical Manual v17.1, 2 March 2021; and applied and maintained in accordance with the TRM WeatherAll® Application Manual v1.1, 24 March 2021.
2. Where the membrane is exposed to UV light, it shall be coated with a pigmented or elastomeric high build acrylic coating that complies with the requirements of CCANZ CP-01 (para 4.3.2) referenced by Acceptable Solution E2/AS3. The Technical and Application Manuals list suitable products.

NOTE: Together, items 3, 4, 5 and 6 define scope of use.

### 7 HEALTH AND SAFETY INFORMATION

The compliance with any manufacturer's installation instructions, maintenance, OH & S statements, SDSs and other Health and Safety declarations will provide the necessary Health and Safety Information pertaining to the product.

### 8 SIGNATURES

Sam Guindi  
Product Certification Manager

For and on behalf of  
Bureau Veritas Australia Pty Ltd

Russell Mitchell  
General Manager

For and on behalf of  
WeatherAll Solutions Ltd

This certificate is issued by an independent certification body accredited by JAS-ANZ, the product certification accreditation body appointed by the Chief Executive of the Ministry of Business, Innovation and Employment under the Building Act 2004. The Ministry does not in any way warrant, guarantee, or represent that the building method or product that is the subject of this certificate conforms with the New Zealand Building Code, nor accept any liability arising out of the use of the building method or product. The Ministry disclaims to the extent permitted by law, all liability (including negligence) for claims of losses, expenses, damages, and costs arising as a result of the use of the building method(s) or product(s) referred to in this certificate.

This certificate may only be reproduced in its entirety. It is advised to check that this certificate is currently valid and not withdrawn or suspended by referring to the Register of Product Certificates on the Building Performance website <http://www.building.govt.nz>.

## TRM WeatherAll® System

### 12 BASIS FOR CERTIFICATION

B2 Durability - By analysis and comparison with Verification Method B2/VM1 and Acceptable Solution E2/AS3  
E2 External moisture - By comparison with Acceptable Solutions E2/AS1 and E2/AS3  
F2 Hazardous building materials - By comparison with the Building Code clause F2.3.1

### 13 SUPPORTING DOCUMENTATION FOR CERTIFICATION

1. Acceptable Solutions and Verification Methods for New Zealand Building Code Clause B2 Durability 2nd Edition (Amendment 12), 28 November 2019
2. Verification Methods and Acceptable Solutions for New Zealand Building Code Clause E2 External Moisture 3rd Edition (Amendment 9), 27 June 2019
3. TRM Elastabond® MSDS V1, 30 August 2019
4. TRM PrimeKey® MSDS V1, 30 August 2019
5. CCANZ – CP01: 2014 Code of Practice for weathertight concrete and concrete masonry construction, incorporating errata 1, January 2015
6. Schedule of 37 WeatherAll Solutions test reports on 18 substrates, 21 October 2020, and 5 WeatherAll Solutions test reports on 5 substrates, 5 April 2021, based on ASTM D4541-17, ASTM D7234-19 and ISO 4624:2016.
7. TRM WeatherAll® Technical Manual V17.1, 2 March 2021
8. TRM WeatherAll® Application Manual V1.1, 24 March 2021
9. TRM WeatherAll® Building Product Quality Plan V7.1, 25 March 2021
10. TRM WeatherAll® Production Plan V3.2, 1 March 2021

## TRM WeatherAll® System

### 14 CONDITIONS RELATING TO NOTIFICATION

- (a) the certificate holder notifies the product certification body (Bureau Veritas) in writing of any intended change to any of the following particulars:
- (i) the name, address, or contact details of the certificate holder;
  - (ii) any address of a location where a certified product is produced or manufactured;
- (b) the certificate holder notifies the product certification body (Bureau Veritas) in writing of any intended change, modification, or alteration to any of the following:
- (i) the certified building method or product;
  - (ii) the method of its production or manufacture;
  - (iii) the product quality plan prepared in respect of the certified building method or product;
  - (iv) the application or installation instructions for the certified building method or product;
  - (v) any documentation relating to the use and maintenance of the certified building method or product;
- (c) if the certificate holder has any reason to suspect that the certified building method or product does not comply with the Building Code, the certificate holder notifies the product certification body (Bureau Veritas) in writing of the reason for that suspicion:
- (d) if the certificate holder or the product certification body finds that a certified building method or product that has been released on the market does not comply with the Building Code, the certificate holder discloses that fact in disclosure statements published in a form that is acceptable to the product certification body (Bureau Veritas) and to the chief executive:
- (e) if the certificate is suspended or revoked, the certificate holder—
- (i) notifies all customers to whom the building method or product is regularly supplied; and
  - (ii) immediately ceases using the certificate, the mark of conformity, and any reference to the number of the certificate.

This certificate is issued by an independent certification body accredited by JAS-ANZ, the product certification accreditation body appointed by the Chief Executive of the Ministry of Business, Innovation and Employment under the Building Act 2004. The Ministry does not in any way warrant, guarantee, or represent that the building method or product that is the subject of this certificate conforms with the New Zealand Building Code, nor accept any liability arising out of the use of the building method or product. The Ministry disclaims to the extent permitted by law, all liability (including negligence) for claims of losses, expenses, damages, and costs arising as a result of the use of the building method(s) or product(s) referred to in this certificate.

This certificate may only be reproduced in its entirety. It is advised to check that this certificate is currently valid and not withdrawn or suspended by referring to the Register of Product Certificates on the Building Performance website <http://www.building.govt.nz>.
